

Result-oriented Graduate Civil Engineer proven track record in structural design, site Engineering, and project management. Demonstrates a unique blend of practical field experience, ranging from masonry to site engineering, and technical proficiency in software such as Protastructure and AutoCAD. Adept at managing complex residential and commercial projects from foundation Layout to final execution, ensuring structural integrity and cost-efficiency.

Experience

CIVIL ENGINEER IN ARK DESIGN LTD (2024-Now)

Structural Engineer (From January 2025)

- I worked as structural designer on many residential house projects especially IS00K0 TOWN VILLAGE To be constructed in Gasabo, Kinyinya Sector, Kagugu Cell. I have designed also URBAIN APARTMENT Constructed in Kicukiro-Kagarama.

Project Manager (July-August 2024)

- I worked as project manager on guest house contractd at Bugesera,Mayange where I worked many activities include Labor Engagment, Materials acquisition , payroll preparation and Pay wages, project supervising, timeline monitoring etc.

Site Engineer (From August 2025)

- I have worked as site engineer on three residential houses, G+1 With a basement at Kicukiro, Gatenga,Nyarurama,Nyabikenke; G+1 At Kicukiro, Gatenga, Rebero, Kabeza and one single story house at Gasabo, Jabana, Ngiryi-Gasharu all they are in progress my responsibilities are Building setting out, Labor Engagement, Daily work monitoring, Payroll preparation, paying wages etc.

ENTERNSHIP IN DECENT ENGINEERING CONSTRUCTION LTD (Sept 2024-Nov 2024)

- I worked internship as site engineer and structural engineer In Decent Engineering Construction Company on a G+2 Residential house in Kicukiro, Kanombe, Rubirizi Busanza. I redesigned house structural design and prepare well prepared working drawings on site. I also worked as quantity surveyor on site, doing many calculations to know required materials, BBS Preparation in order to know exact cutting length in steelfixing work.
- I prepared also project schedule from start to the end in order to know project timeline. I also went in many quaries so as to find out qualified materials like gravels at Ntarama Quarry and Kinyinya for bricks. I helped also in projection monitoring like concrete pouring where I must be near a concrete mixer to see if grade of concrete we had, had been mixed properly.

MASONRY WORK EXPERIENCE

- I had worked as a professional mason on different project from 2019-2023 where I was a brick layer. A worked-on school (Rubavu Technical School, GS Cyahafi in Nyarugenge, Nyamirambo Adventist School), Mega project (Amahoro Stadium as a mason) etc.

OTHER SKILLS

CIVIL ENGINEERING SOFTWARE & EQUIPMENTS

- Protastructure: (Certified by NZIZA GROBAL)
- AutoCAD For drafting
- ArchiCAD
- Microsoft Excel
- Microsoft project
- Dumpy level in site levelling activities
- Lazer level in site surveying

OTHER SKILLS

LABORATORY TESTING

- Cone penetration test
- Direct shear test
- Sieve analysis test (Wet and dry sieve)
- Proctor test
- Slump test
- Geotchnical Investigation report preparation

Contact details

Phone: +250 788 890 109
Gmail: niyomstiven@gmail.com
Location: Kigali, Kicukiro,Nyanza

Professional skills

- Structural design
- Site Engineering
- Project Management
- Quantity Surveying
- Geotechnical Investigation and Laboratory testing.

Education

- University of Rwanda-College of Science and Technology /2021-2025
BSC(Hons) in Civil Engineering: Geotechnical Engineering
- GS St Joseph Kabgayi/2017-2019
Rwanda Advanced Certificate in PCM

Languages

- Kinyarwanda
- English

Hobbies

- Reading
- Writing
- Singing
